The Ethical Use of Machine Learning in Financial Markets - Myth or Miracle?

Michael Weinberg
Managing Director,
Head of Hedge Funds
and Alternative Alpha,
APG Asset Management

October 2, 2020
@ 11:00 AM EDT

Industry experts have divergent views on our topic: some say that machine learning will never achieve artificial intelligence, others suggest the only chance for financial markets to become more ethical are through machine learning. Our discussion will focus on the ethical use of AI (created by financial services regulators can be operationalized to help industry professionals and executive teams align their short-term responsibilities, risks as well as required actions to achieve ethical in our ever-diversifying world.

The Ethical Use of Machine learning in Financial Markets. Myth or Miracle?
