

## **ANTITRUST POLICY**

In order to take advantage of the opportunities and benefits offered by the Financial Data Professional Institute (“FDPI”), an individual (the “Individual”) shall abide by the antitrust policy set forth below:

As a general rule, antitrust laws prohibit competitors, customers, and suppliers from restricting trade or seeking to create or maintain a monopoly on a certain market. As a member of FDPI, I agree not to engage in any behavior that violates antitrust laws.
